

## IMAGINE YOUR STORY

### Mythology Medusa Plate Craft

#### Instructions

1. Gather your materials. Colored paper plates, construction paper, glue, hole punch, tape, pipe cleaners, stickers or stick on jewels. And grab a pencil and scissors for tracing and cutting!
2. First create a snake by rolling half of a pipe cleaner in a coil. Pinch one end to make a nose for your snake head.
3. Now make a tongue for the snake. Cut a 2 inch piece of a different colored pipe cleaner, and attach it to the "snake" pipe cleaner.
4. Make as many snakes as you would like! If have them googly eyes are a fun addition.
5. Take your plate, and trace the top half on a piece of construction paper. Do this a second time 1.5 inches below the first arch you traced. Connect the two arches by drawing lines toward the edge of the paper on each side of the arches.
6. Cut out the arches and decorate. Glue on jewels, or color them.
7. Punch holes around the edge of the plate. Enough for each one of your snakes.
8. Insert your snakes through the hole, and twist to secure. You can tape them on to be extra secure.
9. Attach the crown by taping the edges around the plate. Or glue it on.
- 10.

## IMAGINE YOUR STORY

### Mythology Medusa Plate Craft

#### Instructions

11. To create eyes take a pipe cleaner and cut in in half. Take one half, and create a loop. Twist the ends to secure, it should be almond shaped. Complete these steps to make a second eye; and then glue the eyes on.
12. Glue jewels on inside the eye shaped pipe cleaners you made.
13. Create a nose and mouth using pipe cleaners. Glue on the nose only!
14. Wrap two pipe cleaners together, leaving the ends undone on one side to make a forked. Attach to the mouth, and glue it on the plate.
15. Make teeth with pipe cleaners. Make fangs by cutting a pipe cleaner in half, and folding into triangles and gluing on. Or, take a pipe cleaner and pinch across it to make teeth.
16. Glue the teeth on.
17. You made an awesome monster medusa!
