

IMAGINE YOUR STORY

Unicorns Unicorn DIY Succulent Planter

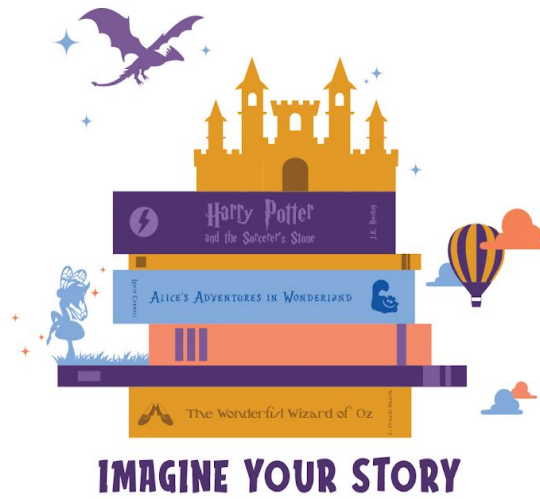

Materials

1. Mini Terracotta Pots/Planters
2. Paint
3. Hot Glue
4. Scissors
5. Paint Brush
6. Small Paper or Fabric Flowers
7. Green Cardstock
8. Gold Glitter Cardstock
9. Black Paint Pen or Permanent Marker
10. Succulent Plants and Soil

Instructions

1. Paint the terracotta pots white. This will require 2-3 coats of paint. Allow the paint to dry completely.
2. Draw a leaf shape onto green cardstock and cut out 2-3 leaves per each pot.
3. To make a horn, draw a triangle shape onto gold glitter cardstock and cut out.

4. Glue the horn on the inside of the pot right towards the top. Glue the leaves and paper fabric flowers onto the top front of the pot.

5. Use a pencil to draw eyes onto the pot. Once you are happy with the results use a black paint pen or permanent marker to trace the pencil.

6. Optional- you can dip your fingertip into pale pink paint and give the pot rosy cheeks.

7. Fill the terracotta pot with soil and then plant your succulent inside.

Tip: To water your plant, soak the soil each time it's completely dry. Allow excess water to drain out of the bottom. Do not allow the plant to soak in a pool of water all day or night. Once the soil dries out, you make soak the plant again.
